

INSTRUCTIONS FOR WOUND CARE FOLLOWING NAIL SURGERY

1. Elevate foot as much as possible today.
2. Leave bandage on for 2 days unless otherwise instructed.
3. After 2 days, remove bandage and soak the surgical foot/feet with 2 pumps of Pre and Post OP Scrub per quart of warm water for 10 minutes twice a day until your next visit. Remove packing strip during your first soak.
4. After soak, dry and apply antibiotic ointment and a new bandage.
5. Should you have any further questions please feel free to contact our office at 847-540-9949.

YOU MUST BUY:

1. Solution for soak – Pre and Post Op Scrub (Sold in our office)
2. Antibiotic ointment – Neosporin OR Triple Antibiotic
3. Gauze and surgical tape OR Band-Aids
